ABOUT US

With a legacy of three decades in the soap and detergent industry through the reputable **Discount soap brand under Sri Ram Bharath Chemicals**, We proudly introduce Higard.

WHERE OUR JOURNEY STARTS

Our journey began with a vision to create a premium range of products that elevate the standards of household cleaning solutions, and to extend our reach across India.

Higard was born out of a passion for innovation and quality. While Discount soap has already made its mark in Tamil Nadu with a range of reliable products including

- + Detergent bars
- + Dish wash bars
- + Matic liquid
- + Dish wash liquid
- + Fabric conditioners
- + Detergent powders

We felt the need to offer something extraordinary. Our commitment to quality and excellence inspired us to embark on **a two-year journey of in-depth research and development**. The result is Higard, a brand that stands for high-quality formulations and exceptional functionality.

ADVANCED FORMULA

What sets Higard apart is our meticulous attention to functional design and advanced formulations. Every aspect of our product, from the durable packaging to the practical bottle shapes, is designed for ease of use and efficiency. We have integrated specialized enzymes and formulations into our products, ensuring superior cleaning performance that tackles even the toughest stains and dirt.

OUR KEY STRENGTH

One of our key strengths lies in the fragrances we incorporate into our products. **We have collaborated with some of the biggest fragrance companies** to develop unique perfumes for each of our offerings. These scents are reminiscent of premium body perfumes, ensuring that using Higard products is a delightful and special experience.

Higard is not just about cleaning; it's about enhancing everyday routines with products that are both high-performing and practical. Join us on our journey as we redefine the standards of household cleaning products and bring a touch of functional excellence to homes across India.
